Hover over the red flags to see details:

The screenshot shows an email client interface with several red flags overlaid on a simulated phishing email. The email header includes a subject line "Subject: Review Request" and a sender address "bc.phishing@bc.edu". The main body of the email contains a message from "Dr. [Name]". The red flags highlight the following elements:

- Sender Address:** A red flag points to the email address "bc.phishing@bc.edu" in the header.
- Link:** A red flag points to a link in the body of the email that appears to be "https://www.bccampus.ca/...".
- Text:** A red flag points to a line of text in the body of the email that appears to be "Please I need your assistance with the review of the...".
- Signature:** A red flag points to the signature block at the bottom of the email, which includes the name "Dr. [Name]" and the email address "bc.phishing@bc.edu".

At the bottom of the email client window, there is a "Thanks, [Name]" signature.
